Front-end Job description

Top 3 Reasons To Join Us:
➔ Fast growing company
➔ Flexible working hours
➔ Competitive paycheck/salary and benefits

Overview:
WhammyTech's built/been building various web applications based on JavaScript's
framework and mobile application on React Native/Flutter.
Now to expand our business with many more projects which are about to come, we are
looking for full-stack web developers who have good skills in ReactJs, Nodejs.
If you are passionate about technology development, constantly seeking a place to learn
and improve your skill set, then you are the type of person we are looking for!

Being our developer, you will focus to:
➔ Understand and analyze the requirements/stories clearly
➔ Keep abreast of new trends and best practices in web development and design
➔ Follow the development process strictly
➔ Implement features/fix bugs as assignments
➔ Firm grasp of Git-based source control

Required Skills and Experience:
➔ Having at least 2 years experience with ReactJs.
➔ Background with HTML5, JavaScript.
➔ Practical experience with ReactJs framework like Nextjs/Meteor
➔ Good knowledge of CSS, SASS, Tailwind/Bootstrap/Material Design, etc...
➔ Solid experience in using a complex REST API from the client-side.
➔ Proficient understanding of cross-browser compatibility issues.
➔ Up-to-date experience with international web protocols, standards, and
technologies.
➔ Having experience in MongoDB is a huge plus.
➔ Having good English's reading is required.

Why You'd Love Working Here:
➔ Five-day work
➔ Attractive compensation package
➔ Performance bonus
➔ 12 Days annual leave / year + 1 day every year (max. 18 days)
➔ Annual company retreat
➔ Tea, coffee, snack, beer and fruit breaks
➔ Got Mac Device

Who We Are:

Founded in December 2019, WhammyTech Co. was established as a solution provider; after many years of experience in the international environment, we recognized the

importance of technology in our daily life.

With solid background and experience in the international work environment, we offer

the most optimized technology, UI/UX and create an ecosystem to meet the rising demands in complex system management, in order to improve organization's productivity and elevate company equity.
